

**Resolution proposed by
UC Santa Cruz Foundation President Ken Doctor**

The UCSC Foundation enthusiastically endorses Proposition 30. We believe the state measure is an essential building block in stabilizing UC – and other educational funding – in California. As Californians, our commitment to today’s students and to the research that builds our future is being tested. Proposition 30 is one step in maintaining – and then growing – that commitment. We join with the UCSC Alumni Council in this endorsement, and urge other UC Foundation boards and alumni association, as well as voters generally, to support the measure.

As part of our support, we donate \$10,000 towards advocacy to approve Proposition 30 to the *Yes on Prop 30 Committee*.
